Considerable secrecy surrounds the departure of the Yorktown, it being reported that she will visit every point along the Lower California coast and keep in touch with Admiral Thomas at this point by means of wireless.

FRANK CHANCE IS DECLARED AN OUTLAW

CHICAGO, March 13.—Advices were received here last night that Frank L. Chance, manager of the Chicago Nationals, had been suspended for one year by the American Automobile association from participating in any of its race meetings.

Chance, who is a friend of Barney Oldfield, brought down the ire of the automobile body by acting as starter at one of the former's race meetings on the Pacific coast.

Oldfield is under suspension by the Automobile association for participating in an unauthorized race with Jack Johnson, the pugilist.

GRAHAME-WHITE TO GO AFTER MORE RECORDS

NEW YORK, March 13.—Reports from England indicate that Claude Grahame-White, who won the race at Belmont Park last year for the international cup, and who will head the English team of defenders next June, plans to try to hold to the cup by flying in an all-British machine. Last year he used a 100 horse-power Bleriot.

Grahame-White has had built after his own designs a new racer, which he calls the "New Baby." Illustrations received here show that it is of the Farman type, but with greatly reduced surface.

OWENS VALLEY TO BE ON MAIN LINE OF THE S. P.

WORK BELIEVED TO BE AL-
READY COMMENCED ON
NEW RAILROAD.

Commenting on the railroad development in Owens valley, and the fact that the Southern Pacific is now planning extensive improvements and extensions, the Owens Valley Herald says:

"That Owens valley is eventually to be on the main line of the Southern Pacific, one branch of which will connect with the Ogden route direct to Omaha and Chicago, the other with the northern branch into the Idaho-Oregon country, is practically conceded by all who have information in the great struggle for railroad supremacy in the west, and who have watched the strategic moves of the various roads who have greatly extended their building operations in the last few years.

"Not only is the main line from Los Angeles to Portland, by way of Hazen, Nev., and Huntington, Idaho, planned, but work on it is actually beginning. Mrs. T. G. Waterson, from the Inyo Store company, returning recently from a shopping trip in San Francisco, noticed two important facts in connection with this railroad. One was an immense amount of railroad building material lying in the yards at Hazen, Nev., which was intended for the north extension of the Los Angeles-Portland route, she was told. The other was an outfit of surveyors and railroad engineers, housed in seven work-cars, sidetracked at Belleville, just across the White mountain summit. These facts lend additional weight to the story from Reno to a Los Angeles paper last Sunday.

MORGAN IN EGYPT; DENIES HE IS SICK

CAIRO, Egypt, March 13.—J. Pierpont Morgan arrived here yesterday from a trip up the Nile. He said:

"I am perfectly fit and well and have not been ill in any way. It is absurd that a gentleman cannot travel without some one starting the stories about him which seem to recur monthly."

Mr. Morgan refused to make any statement regarding his itinerary further than the fact that he expects to leave Cairo this week.

FORTY PEOPLE FALL INTO CELLAR AT A FUNERAL

ERIE, Pa., March 13.—Forty persons attending the funeral of Henry Gussman at his home yesterday were precipitated to the basement when the floor collapsed. All were more or less bruised or suffered from shock, and two women were taken home in an ambulance.

The drop into the cellar caused a wild struggle among the mourners, who were lying three deep. The services were continued in the home of a neighbor.

BOYS AND WIRE PUT OUT LIGHTS OF CITY

Tonopah was plunged into darkness for a few moments last night owing to the pranks of a bunch of boys at Silver Peak, who were experimenting throwing with a piece of baling wire. The boys succeeded in throwing the wire over the wires that transmit the electric light current to Tonopah. It was found necessary to install new fuse plugs all along the system before the lights were all burning brightly once more.

JOAQUIN MILLER NOW NEARING RECOVERY

OAKLAND, March 13.—Joaquin Miller, poet of the Sierras, is still at Fabiola hospital, but is now on the road to complete recovery from his recent grave illness. It is expected he will return to his home on the Piedmont hills within the next few days. The poet is now able to take daily exercise, despite the inclemency of the weather.

Where will I meet you on the 17th of March? Why, at the Wolfe-Tone dance, of course!

His head rests on a silk pillow, and the inside of the casket is entwined with white and green snowdrops. Many persons have called at the Ziegler home to view the "remains."

GERMANY NOT INTERESTED IN MEXICAN HOSTILITIES

MINE OPERATORS SELECT RESCUE CREW TO HANDLE LIFE-SAVING APPARATUS

Complete Outfit Will Be Stored In Fire Station to be Available for Use In the Mines or City.

In order to avoid a recurrence of the disaster at the Belmont mine on the morning of February 23, a rescue crew of picked men will be thoroughly drilled in the use of the Draeger helmets and other life-saving apparatus similar to that carried in the United States Bureau of Mines rescue car. Two men from each mine have been selected for this work, together with a member of the fire department, and upon the arrival of the apparatus will be trained in its use.

The Mine Operators' association is now in communication with the manufacturers of this apparatus in San Francisco and will install a most complete outfit, which will be stored at the fire station, in order to be available either at the mines or in case of a serious fire in the city where it may be necessary to enter a smoke-filled building in order to save life. The outfit will be forwarded to Tonopah just as soon as it is decided exactly what is necessary.

The men who will compose the team are:

Montana Mine:
EARL QUICK and LOUIS LOUIS SCHWEITZER.

Belmont mine:
JEFF BURKHART and HENRY KNIGHT.

Midway mine:
NELS NELSON and ELMER FULMER.

Tonopah mine:
C. M. VAN FLEET and GEORGE SPITZER.

Fire Chief—W. J. SINCLAIR.

EVERYONE IS DAFFY FOR ONCE AT LEAST

CAMBRIDGE, Mass., March 13.—Dr. Owen Copp, who has just resigned from the Massachusetts board of insanity to take charge of the Pennsylvania hospital for the insane, said today that every one at some time in life is bordering on the verge of insanity.

"There are extremely few families which survive for three or four generations without the outcropping of some case of insanity," he continued. "Again there are few men or women who do not pass through certain times in their lives which are so severe as nearly to drive them out of their minds. All of us are on the verge of insanity at one time or another in our lives, although we may not actually pass over the fine line which is drawn between sanity and insanity."

GREENE AND GAYNOR ARE HELD IN PRISON

ATLANTA, March 13.—Benjamin Greene and John F. Gaynor are inmates at the federal prison. They came to Atlanta this morning to the office of United States Commissioner Colquitt, prepared to take the paupers' oath, swearing off a fine of \$585,000 each, and then planned to leave the city for their homes. In their hands they carried grips, containing all their belongings. There was no doubt in their minds that freedom was at hand.

But hopes were dashed to the ground, when District Attorney Tate and Assistant District Attorney Akerman asked a continuance of the case until March 21, claiming that the government needed that time to bring witnesses from New York and Chicago, to prove that the two prisoners had stored away the sum of \$1,000,000 each. The continuance was granted.

IMMENSE NUMBER OF MEN ON UNCLE SAM'S PAYROLL

WASHINGTON, March 13.—Some idea of the immensity of Uncle Sam's payroll may be gained from the report just submitted at the request of the senate.

The total number of the employees, exclusive of those in the army, navy and census, is 684,769. Of this number, 10,839 are selected by presidential appointment, 9846 whom must be confirmed by the senate. The largest number in this class is 7953 in the postal service. There are 262,608 officers and employees under civil service regulations, 147,727 of whom are in the postal service and 27,093 in the treasury department.

TEN CENTS OFFERED FOR 10,000 OF BIG FOUR STOCK

One of the big offers in the market today, according to telegraphic reports, was the offering of 10 cents a share for a block of 10,000 of Big Four stock. No record is given as to whether the bid was accepted or refused.

FALSE PRICES ARE EXPOSED BY M'GRAW

BETTING IN FUTURE BOOKS IS DECLARED THE "BUNK" BY MANAGER.

MARLIN, Texas, March 13.—"The only good bet on the card," said Manager McGraw of the New York Nationals, as he looked over the prices laid against the clubs of both big leagues by a Louisville future book concern, "is the 5 to 5 offered against Connie Mack's Athletics in the American league.

"Most of the other prices are false odds. They have the Giants quoted as 8 to 5 favorites in the National league, while we ought to be about 4 to 1, with the Cubs at the top of the list.

"Just because Chance's team was beaten in the world's championship last fall is no reason why they should not have first call in the betting this fall. I may have different ideas on how the race will result, but on past performances the Cubs should be favorites.

"Six to five, though, is not too short a price against the Athletics. They won the American league pennant and the world's championship last year without half trying and with a team that ought to be even better this season. The Tigers, though they finished third a year ago, are a natural second choice.

"Chase has what looks like a rattling good ball club in the New York Americans, but Detroit is the logical betting choice for second choice."

TONOPAH'S STREETS WILL SOON BE "GOOD AS NEW"

Commencing tomorrow morning Chief of Police Smith, together with his assistants, will get busy on street repair work and put Tonopah's thoroughfares in gala day attire. All holes that have acted as a hindrance to the prompt removal of water will be filled up with sand and gravel and every effort extended to put the streets in such condition that the next storm coming this way will be speedily passed along.

FREE SHOW AND BIG SOUVENIR FOR KIDDIES

Next Saturday afternoon Jake Goodfriend, the kid's friend, will be the host of every youngster in Tonopah. On that auspicious occasion the children of Tonopah will be admitted free to the Butler theater and will be presented with a souvenir before leaving the house. Every child in the town is invited to attend this performance, and Jake will be real mad if any of his juvenile friends "throw him down."
